STANDARDS GUIDE			
	EN ISO 11611 EN ISO 11611 applies to garments for use during welding & allied processes. Testing assesses the garment's ability to protect against flame and radiant heat.		EN ISO 11612 Garments displaying EN 11612 are designed to protect the wearer against heat/flame. Tests assess convective heat resistance, flame spread and protection against molten iron splashes.
	IEC 61482-2 IEC 61482-2 is the standard used to test garments and fabrics which are intended to protect the wearer against arc flashes.		EN 1149 EN 1149 refers to the level of electrostatic protection offered by the item. Testing covers surface resistance, vertical resistance & level of charge decay offered by the item.

ABOUT US

About

Established in 1996, Supertouch® is one of the most respected names within the UK Protective Workwear and Disposables Industry. We pride ourselves on our great products, competitive pricing and outstanding customer service. Our experienced staff can provide you with excellent technical know-how in order to address all of your health and safety needs.

As we only deal with distributors, we are able to offer you our quality products at highly competitive prices. We endeavour to develop strong, long-lasting Business to Business relationships with our customers through careful consideration of their individual needs. With warehouse space of approximately 120, 000 square feet, we are one of the largest stockholders of hand protection and workwear in the United Kingdom - this means that we have a rapid and consistent supply of our products, reducing the time it takes for you to receive your order.

Supertouch has a dedicated team of fully trained Business Development Managers (BDMs) covering the UK and Europe. From Aberdeen to Zurich - wherever you're based, we have you covered!

Quality Assurance

We pride ourselves on the quality of the products and are dedicated to ensuring their compliance with all necessary British, European and International Personal Protective Equipment standards.

We perform all of our product testing and certification in the UK at independently accredited testing facilities, and our experienced Technical team are always on hand to offer technical support.

Our in-house Quality Assurance team are responsible for the implementation of our audited Quality Management System and as such, perform strict quality audits on all products received by the company to maintain the high standards that our customers have grown to expect.

We are thoroughly committed to investing in the improvement and development of both new and existing product lines in order to remain at the forefront of industry trends. As new materials, processes and products are introduced into the marketplace, our belief in product development enables us to continue to meet and exceed the needs and requirements of our customers.

SUPERTOUCHE BROCHURE

HAND PROTECTION & WORKWEAR

Values & Responsibilities

Here at Supertouch, our mission is to provide an enthusiastic customer-led service in order to further establish our position as one of the leading B2B focussed workwear and hand protection suppliers within the United Kingdom. We have a clear set of values that underpin our working practice to ensure that we provide the best service possible at all times:

Range: We offer one of the largest ranges of hand protection and workwear within the United Kingdom in order to ensure that we can offer our customers the most practical solutions to their personal protection and workwear needs.

Value: We take pride in providing high quality products that are excellent value for money.

Service: We believe that business should be straightforward and strive to provide a fast and efficient service, ensuring that our customers' requirements are fulfilled as quickly and easily as possible.

Being a responsible business, we are aware of the impact that our company has on the environment. We therefore work in accordance to the Environmental Management guidelines covered by ISO 14001. Supertouch is an ISO 9001 Quality Management certified company. We continually strive to improve the effectiveness of our quality management systems in order to benefit our customers.

Distribution

We understand just how important a rapid delivery service is to our customers. Our Midlands-based Distribution Centre makes delivery quick and efficient no matter where you're based - perfect for such a fast-paced market.

We work with leading logistics companies in order to provide you with reliable and cost-effective delivery solutions, and with a next-day delivery service available*, you can be sure that our goods will be with you when you need them.
