Max Wearing time (min)	60	75	100	240	-

These garments comply with the essential health and safety requirements of

LIMITATIONS OF USE:

The garment must be worn fully fastened at all times to achieve the stated level of protection. Do not modify or alter the garment in any way.

To ensure ongoing effectiveness, the garment must be kept clean and in good condition; replace immediately if it becomes permanently stained, faded, damaged, or no longer compliant. This garment is intended as a conspicuity aid only and does not eliminate all risks. Regular visual comparison with a new garment is recommended to assess ongoing performance.

AFTERCARE:

Follow the care instructions detailed on the garment label. The manufacturer accepts no liability where care instructions have been ignored, neglected, defaced, or removed. The stated maximum number of cleaning cycles is a guideline only. The actual service life of the garment will also depend on factors such as frequency of use, washing, drying, storage conditions, and environmental exposure.

STORAGE AND TRANSPORTATION:

Store the garment in clean, dry conditions away from direct or prolonged exposure to strong sunlight. If the garment becomes wet, allow it to dry naturally at room temperature before storage. The garment is suitable for transportation in the condition supplied by the manufacturer.

GARMENT DISPOSAL:

At the end of its service life, the garment should be disposed of responsibly and in accordance with applicable UK & European regulations. Where recycling or textile recovery schemes are available, these options should be used in preference to landfill or municipal waste incineration. Disposal via landfill or incineration is acceptable only where the garment has not been contaminated with hazardous substances.
